FAST-TRACK YOUR
STUDIES WITH
RECOGNITION OF
PRIOR EXPERIENCE OR
QUALIFICATIONS

The Master of Professional Accounting will prepare you for practice as a professional accountant. You will develop analytical, general business management and problem-solving skills, and gain a comprehensive understanding of accounting practice.

Your studies will focus on financial and management accounting, finance, commercial law, taxation law and auditing. You'll study contemporary research and real-life case studies, with the opportunity to complete an industry placement in Australia or overseas.

Our summer and winter schools offer exciting study and learning opportunities. With options such as intensives and internships, you can spread your study load across the year and increase your exchange opportunities.

You will graduate well-equipped for a global career, knowledgeable in areas such as commerce, tax, financial management, and public practice. If you already have a business degree or another related qualification, you could be eligible for Advanced Standing and complete this degree in just 1.5 years.

Join the top 1% of Business Schools, one of only 167 business schools worldwide to be awarded EQUIS accreditation, the world's leading international accreditation for business schools (EFMD Quality Improvement System).

Melissa Stead

Accountant/Business Analyst, Drakes Supermarkets

"I wanted to be involved in the strategic management accounting of a company. Now that I have finished my Master of Professional Accounting, I have been offered new opportunities giving me greater effect on how the company operates.

"It taught me a new way to learn and gave me a passion for researching all situations to apply the best possible solutions. It is a fundamental stepping stone to applying for Professional Membership of the CPA."
