MANAGEMENT*

ERA, 2015

The Master of Management provides contemporary management skills and study areas such as project management, leadership and strategy. You will gain the confidence to manage organisations and achieve business objectives in an efficient and effective manner.

You will be immersed in real-world challenges and have access to industry placements, overseas study tours and elective courses to suit your personal and professional development needs. During your studies you will develop an advanced understanding of business and management, and graduate with the capabilities to be a successful leader and decision-maker in any business setting.

Our summer and winter schools offer exciting study and learning opportunities. With options such as intensives and internships, you can spread your study load across the year and increase your exchange opportunities.

If your career interests are specifically aligned to a particular industry, you may consider pursuing a specialisation in Human Resource Management, Marketing, Supply Chain Management, or Tourism and Event Management.

Join the top 1% of Business Schools, one of only 167 business schools worldwide to be awarded EQUIS accreditation, the world's leading international accreditation for business schools (EFMD Quality Improvement System).

Business
School

Program code: DMMX
SATAC code: 4CM2O2
Duration: 1.5 years (full-time)
Intake dates: February, July

WHAT YOU WILL LEARN

The Master of Management comprises 12 courses. You will complete four Business School core courses and four management courses. You will also complete four postgraduate electives – two from the management specialisation and two from the Business School. These will enable you to develop skills from selected key disciplines essential for management in business.

COURSE OUTLINE

Business Analytics and the Data-driven organisation

Business Ethics

People, Leadership and Performance

Strategic Concepts

Managing the Global Workforce

Entrepreneurship and Innovation

Project Management for Business

Managing Change

CAREER OUTCOMES

Our Master of Management program will equip you with multi-disciplinary skills and broad business knowledge that are highly desired in most industries. You will graduate ready to operate at senior levels of an organisation. Graduates of this degree have gone on to senior roles such as Executive Officers, Executives and Business Managers.

ENTRY REQUIREMENTS

For entry into this program, applicants are required to have completed a bachelor degree, a graduate diploma or a graduate certificate with a recognised higher education institution with a grade point average of 4 or above.

ADVANCED STANDING

Eligible applicants can complete this degree in 1.5 years of full time study (or the equivalent part time) with Advanced Standing. You may be eligible if you have successfully completed one of the following:

- a bachelor degree in a business discipline;
- a bachelor degree which includes a major in business, commerce, marketing or management; OR
- a graduate certificate in a business discipline.

HOW TO APPLY

Applications for the Master of Management can be made via satac.edu.au/postgraduate

Luke Richardson

Master of Management

"When I commenced my studies I was already working full-time in the Defence industry as both an engineer and a manager. I have been able to use my ongoing employment as context for learning and immediately put into practise the things that I have learnt."

"The Master of Management was fundamental in preparing me to pursue future career opportunities. Prior to my studies I didn't realise how much I was unaware of. I am now prepared to approach my current and future work opportunities with open eyes."
