FAST-TRACK YOUR
STUDIES WITH
RECOGNITION OF
PRIOR EXPERIENCE OR
QUALIFICATIONS

With a Master of Finance you will be equipped to manage the challenges of the fast-developing global finance industry. This program features the option to study a specialisation in banking, providing you with the flexibility to customise your program and explore this dynamic and evolving sector.

This degree has a strong focus on experience-based learning. You will use financial market simulation programs in the new Finance Trading Room and engage with the global derivatives trading industry. You can also choose to enhance your business consulting skills and professional experience through a professional business placement in Australia or overseas.

You also have the option to specialise in Banking, a central pillar in ensuring stability of the global financial system. The Master of Finance (Banking) develops understanding of the institutions and markets within which banking operates and how risk management is applied and analysed in the banking sector, with a unique focus on the Chinese banking and financial system.

You will graduate ready for senior roles in the financial services sector and be skilled in applying current theory to real-world issues.

Join the top 1% of Business Schools, one of only 167 business schools worldwide to be awarded EQUIS accreditation, the world's leading international accreditation for business schools (EFMD Quality Improvement System).

XIAO ZHENG

Graduate, Master of Finance

"The Master of Finance has enabled me to effectively research, be self-sufficient, understand and use specialist software/databases (SAS and STATA) which has prepared me to work in the financial field. In particular, the Chinese Banking and the International Finance courses were really interesting and brought knowledge from China into the Australian context."

"I thoroughly enjoyed the University Mentor Program, which provided insights into employment opportunities and employability attributes companies seek when hiring graduates."
